Tinning wires safely
Dip soldering system

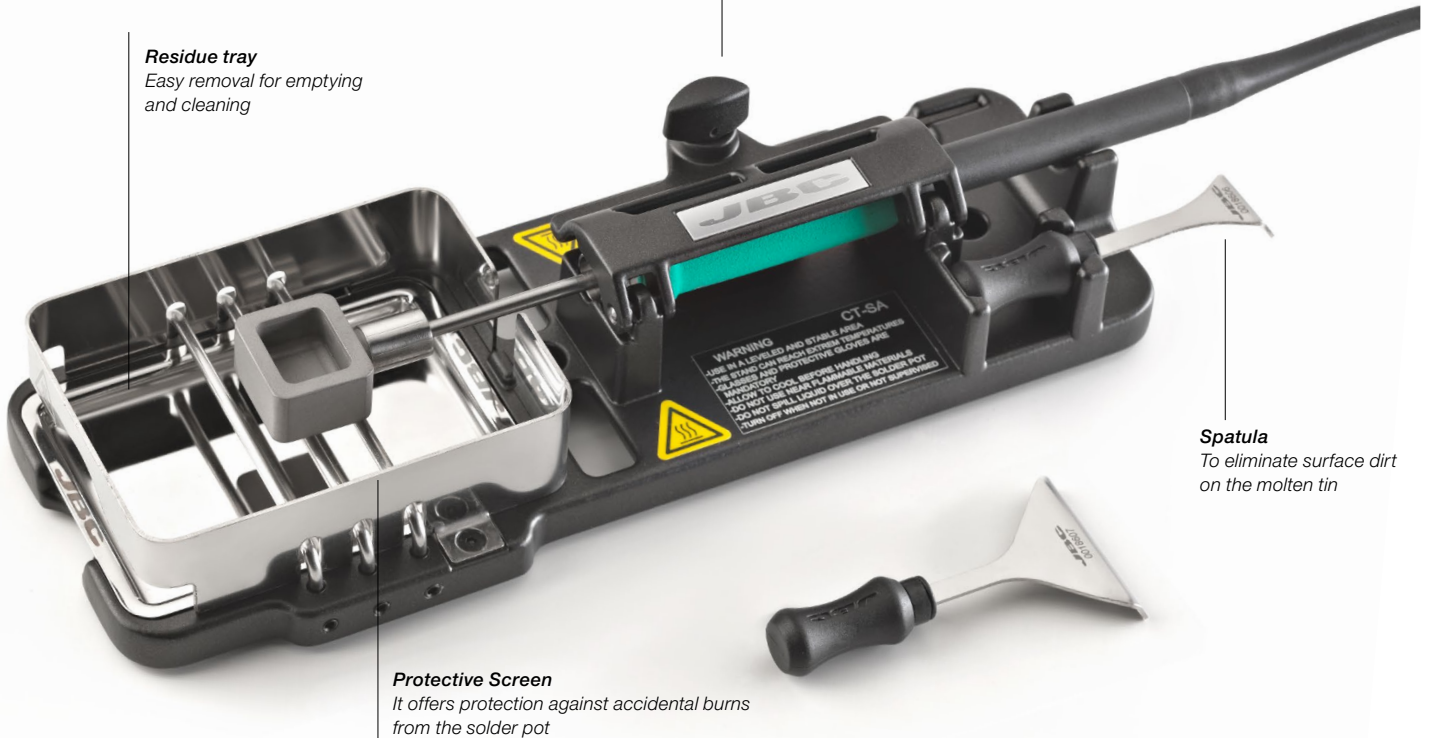

CT-SA Solder Pot Cartridge Stand

Robust and stable unit which is safe while working and avoids tipping over accidentally

It can be employed with T245 and T470 handles with Solder Pot Cartridges

Knob
Easy and safe change of the handle without using a tool

Residue tray
Easy removal for emptying and cleaning

Spatula
To eliminate surface dirt on the molten tin

Protective Screen
It offers protection against accidental burns from the solder pot

Solder Pot Cartridges

Ideal for **tinning wires and components faster and safer**. Can also be used to desolder Through Hole Multipin components. The long-lasting titanium pot will resist the corrosiveness of lead free solder alloys.

Ref. **C245-SP01**

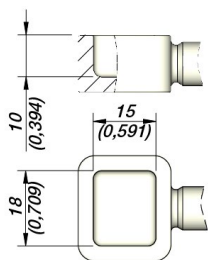

For T245 handles

Can be connected to DDE and DME stations with the AD-SD stand or the CHB-A converter.
With CD stations, the handle is directly connected to the control unit.

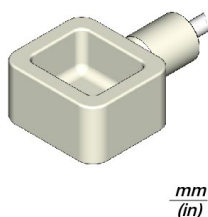

Ref. **C470-SP01 & C470-SP42**

For T470 handles

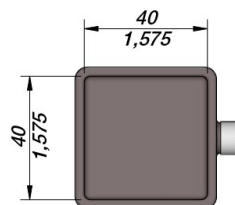

Can be connected to HDE stations with the HD-SD stand or the CHB-A converter.
